

Virtual Patent/IPR Marking Notice by Framery

This website is provided to satisfy the virtual patent marking provisions of various jurisdictions and to provide notice under §62(1) of the UK Patents Act. Following list also shows countries that don't yet mention virtual patent (and/or design rights) marking provisions but in good faith we also list Framery IPR in those countries.

This information also includes Framery design protection and registered copyrights in all countries where the company has those rights. The list of IPR provided below is not exhaustive, and Framery has other registered and unregistered rights (such as trademarks) in the products, the details of which are not included in the list.

Products (Framery O, Q, 2Q, One) with related IPR numbers are listed under each individual country.

The IPR protection process is dynamic and the content of this list and association between products and properties may change due to events including, but not limited to: filing, publication, issuance, licensing, product changes, expiration, abandonment, and other circumstances. The content of this list is updated from time to time but may not be up to date at the specific time you visit this link. Efforts will be made to maintain this page up to date.

Framery trademarks are listed after the patents and design rights.

Framery trademarks

A trademark can be a word, phrase, symbol, or design that distinguishes the source of the goods or services. Also, as a trade dress, it can be the appearance of a product or its packaging, including size, shape, color, texture, graphics, and appearance (e.g, retail store or website).

The following is a non-exhaustive list of Framery's trademarks and service marks. Registered trademarks also include a list of countries/areas where they are registered.

The absence of a product or service name or logo from this list does not constitute a waiver of Framery's trademark or other intellectual property rights concerning that name or logo.
