

Framery Smart Office Solutions

Make any space smart with Framery

Framery smart office solutions are workplace tools that help workplace managers make data-driven office design decisions and access workplace insights through intuitive dashboards. The seamless room booking solutions deliver a premium employee experience.

Pair the solutions with Framery smart pods or turn any office space into a smart workspace.

Workplace management

FRAMERY ROOM SENSOR™ Privacy-first sensor providing anonymous occupancy and people counting data.

FRAMERY CONNECT™ A smart platform for workplace management.

Room booking solutions

FRAMERY ROOM DISPLAY™ See availability and book any room with ease.

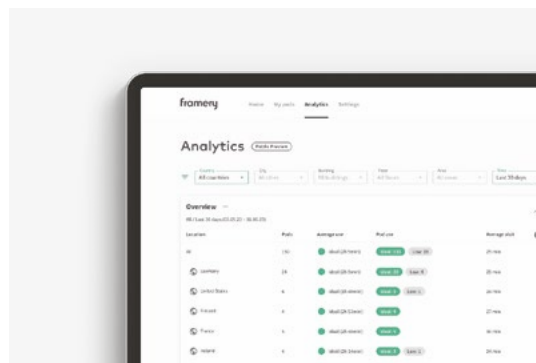

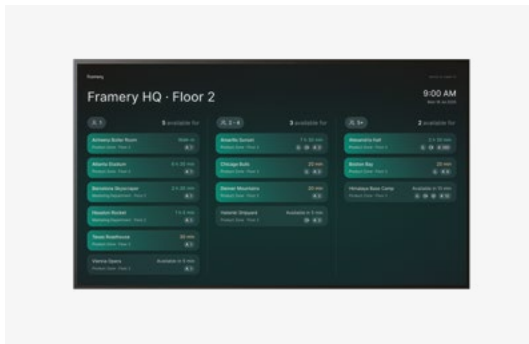

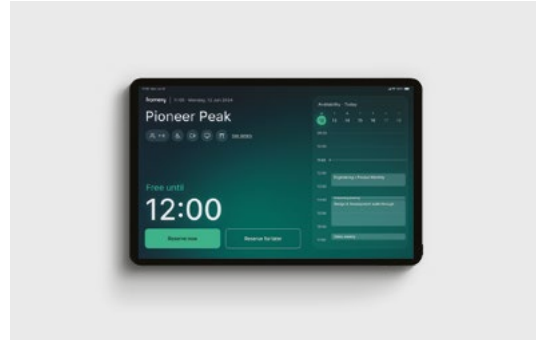

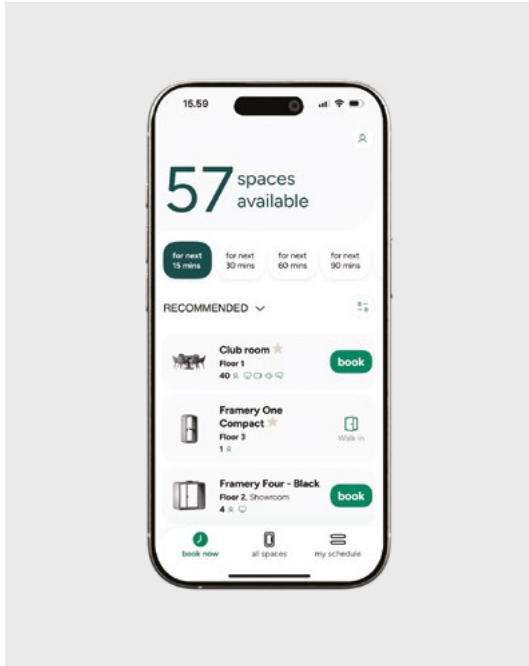

FRAMERY SPACE OVERVIEW™ Shows real-time space availability across nearby workspaces.

FRAMERY APP™ Find and book spaces in seconds.

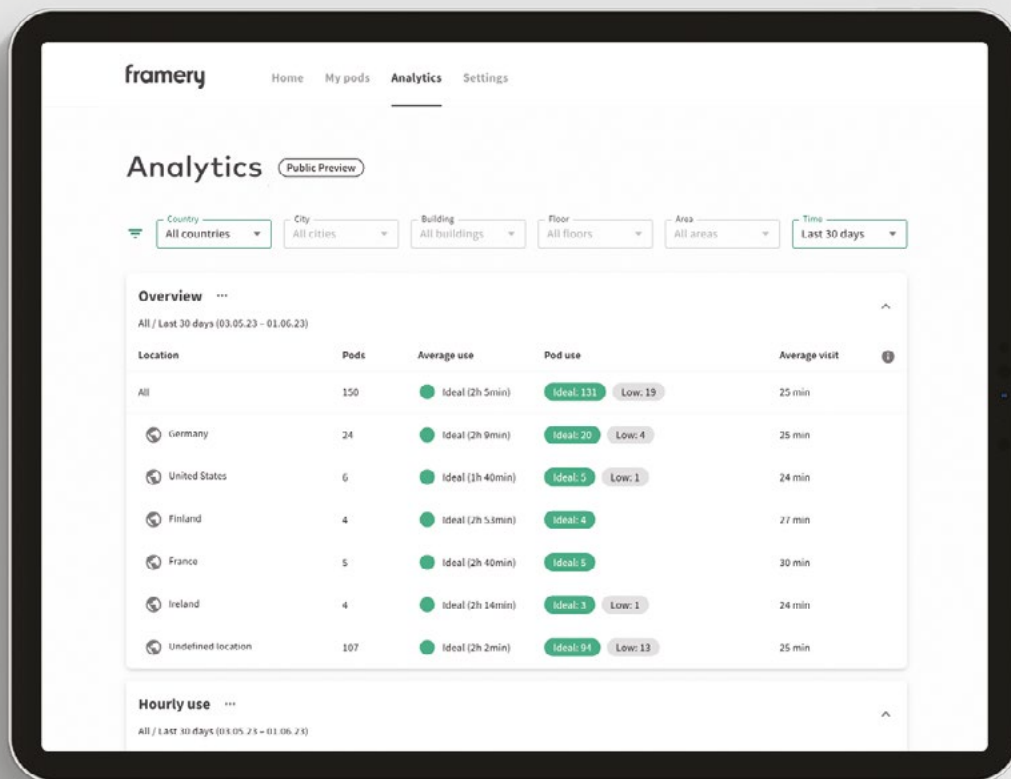

Accessory kits

Deploy the Framery Room Display and Space Overview software on your own preferred tablet and accessories, or get a complete kit of accessories from Framery.

Framery smart office solutions

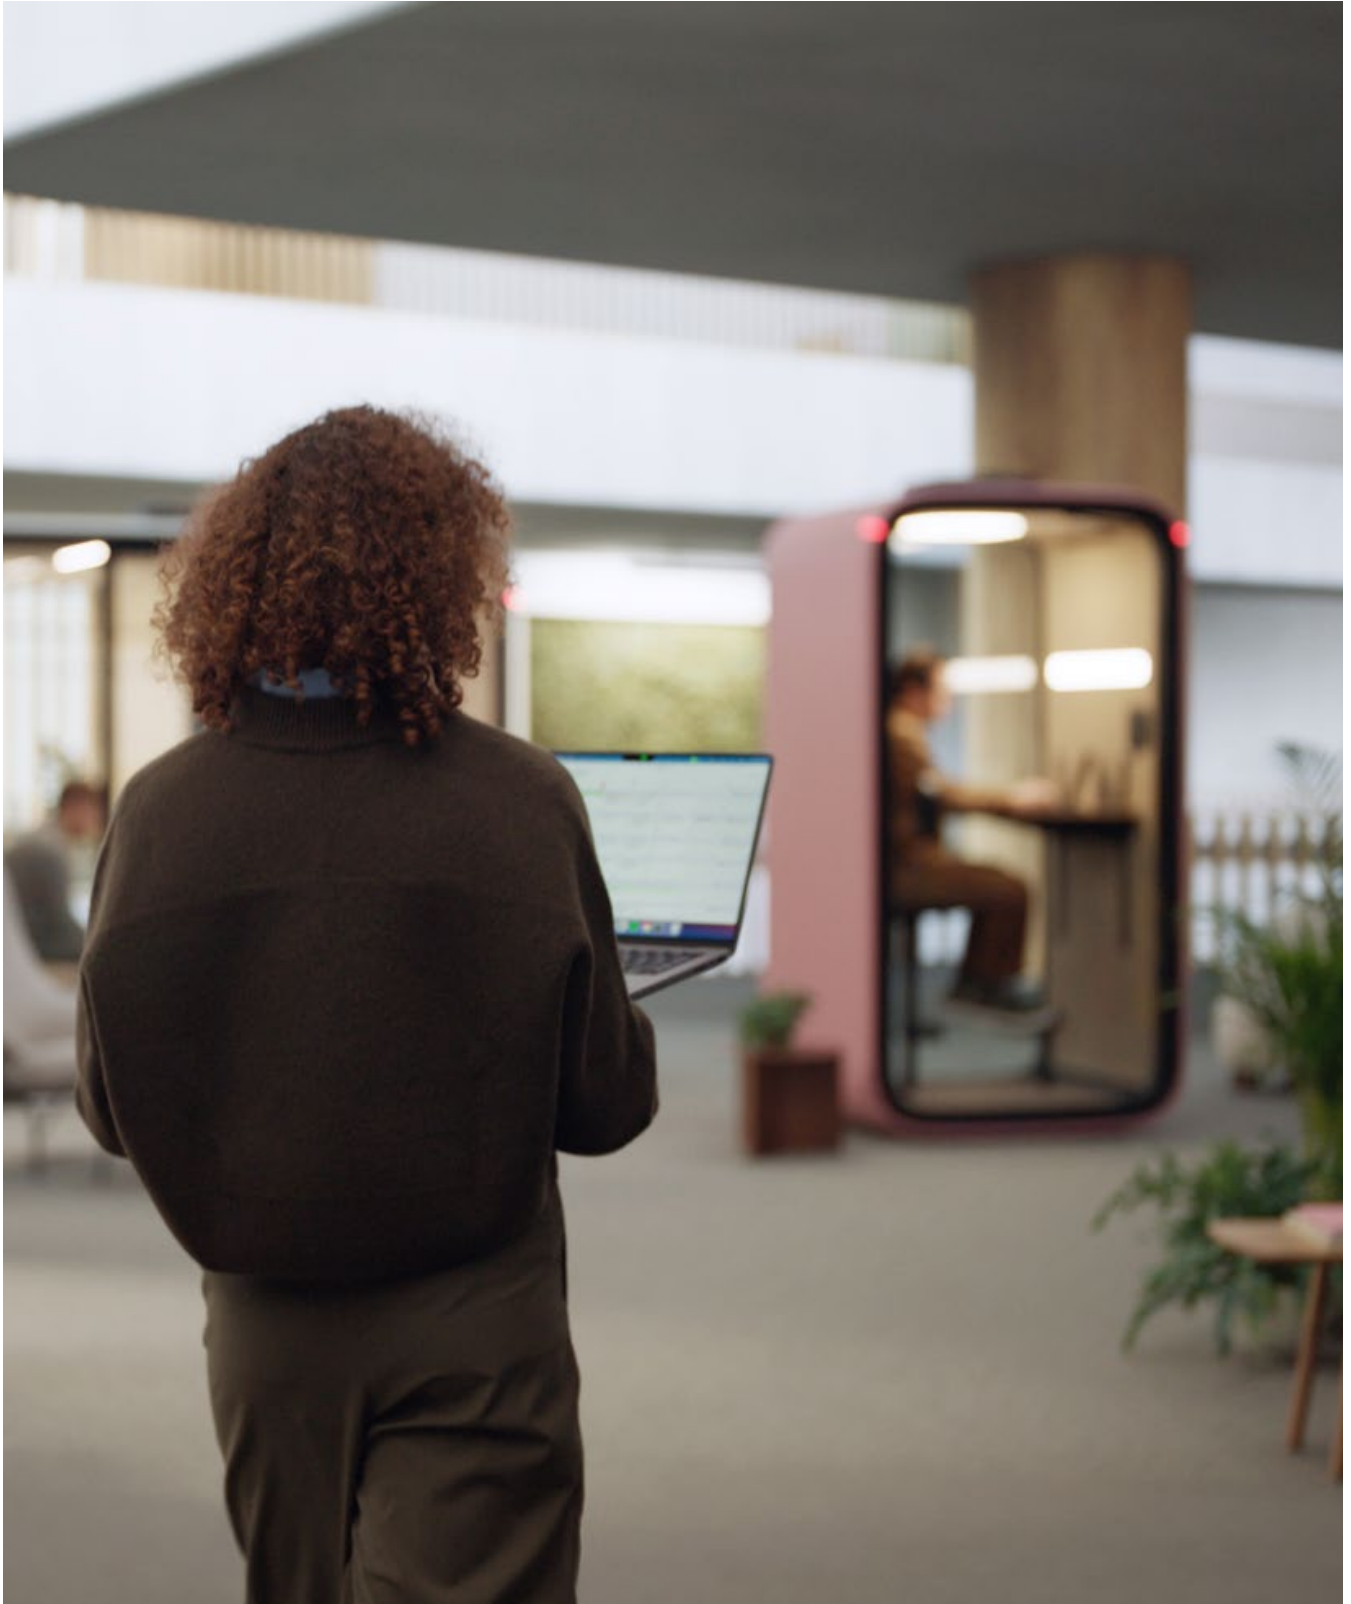

Framery Connect™

An all-round platform designed for impactful workplace management.

framery

Framery Connect is an all-round platform for workplace management. Use privacy-safe people-counting data to see exactly how and when people use your office. Identify underutilized and improperly used spaces to make precise layout adjustments, effectively cutting costs and maximizing real estate ROI.

Framery Connect / Product highlights

UNIFIED INSIGHTS AND ANALYTICS

Monitor occupancy data from both Framery smart pods and other workspaces with the Framery Room Sensor – all in one view.

IMPROVE SPACE USAGE

See how spaces are being utilized and make data-driven decisions to optimize office layouts or relocate pods.

SPACE EFFICIENCY METRICS

Gain reliable metrics by sensing and counting occupants within the space to verify if they are being utilized as intended.

TOTAL PRIVACY

Framery Connect utilizes fully anonymous occupancy data that is gathered through using millimeter wave technology (no camera & no microphone).

UNLIMITED USERS

Framery Connect doesn't restrict user numbers or require individual licenses. Invite your entire team to collaborate on office data at no additional cost.

ALL-IN-ONE MANAGEMENT

Framery Connect is a single platform for managing all Framery smart office solutions and smart pods.

Framery Connect / Product details

ACTIONABLE OFFICE DATA WITH FRAMERY CONNECT™

Access intuitive visual data via Framery Connect, our workplace management platform, and build a workplace that really works.

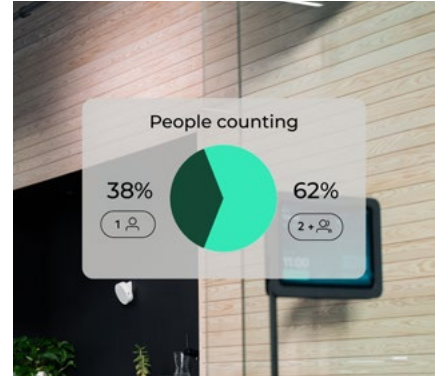

RIGHT FIT

Verify space design by confirming that occupancy aligns with intended room capacity plan.

USAGE TRENDS

Track utilization patterns and trends across all locations for a strategic overview.

DATA-DRIVEN DECISIONS

Identify and resolve availability shortages, capacity mismatches, and utilization issues using actual data.

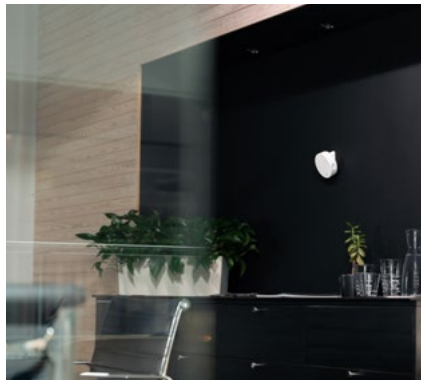

GET A FULL VIEW OF USAGE DATA WITH FRAMERY CONNECT

FRAMERY SMART PODS

The anonymous occupancy data gathering happens automatically through a 4G connection and built-in sensors utilizing millimeter-wave technology.

See if pods are in the right locations and if their usage matches their intended capacity. If utilization is uneven, you can easily relocate underused pods to high-traffic areas or identify where more pods are needed to meet demand.

FRAMERY ROOM SENSOR

The sensor utilizes the same data-gathering technology as the smart pods – keeping all data anonymous and secure. Add the sensor to any space and get the insights you need to optimize your office.

See if your meeting rooms are used by the number of people it was designed for. If you identify a capacity mismatch, you can use these insights to adjust your office layout, or acquire the right type of spaces to better meet employee needs.

Framery Room Sensor™

Precise occupancy data with wireless, anonymous people-counting technology, from any office space.

framery

Use privacy-safe people-counting data to see exactly how and when people use your office. Identify underutilized and misused spaces to make precise layout adjustments, effectively cutting costs and maximizing real estate ROI.

Framery Room Sensor / Product highlights

TOTAL PRIVACY

Millimeter-wave technology enables fully anonymous data collection – without using any cameras or microphones.

SPACE EFFICIENCY METRICS

Gain reliable metrics by sensing and counting occupants within the room to verify if spaces are being utilized as intended.

NO-SHOW MEETING DELETION

Connect with your company calendar for automatic room reservation and seamless release management.

SIMPLE 2-STEP INSTALLATION

The sensor is attached to a wall surface via a simple magnetic mounting: attach the magnet to the wall, then place the sensor on it.

FLEXIBLE POWERING OPTIONS

Supports both wireless power (battery) and continuous wired power via cable.

MODERN DESIGN

The sensor features a sleek profile and white matt finish.

Framery Room Sensor / Product details

ACTIONABLE OFFICE DATA WITH FRAMERY CONNECT™

Access intuitive visual data via Framery Connect, our workplace management platform, or export data for external reporting.

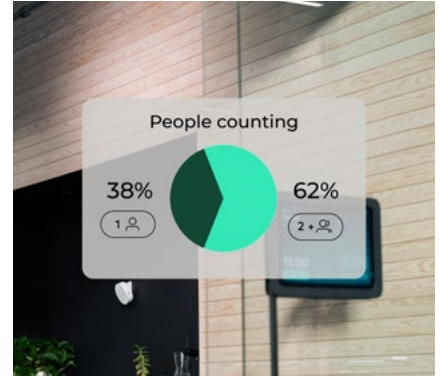

RIGHT FIT

Verify space design by confirming that occupancy aligns with intended room capacity plan.

USAGE TRENDS

Track utilization patterns and trends across all locations for a strategic overview.

DATA-DRIVEN DECISIONS

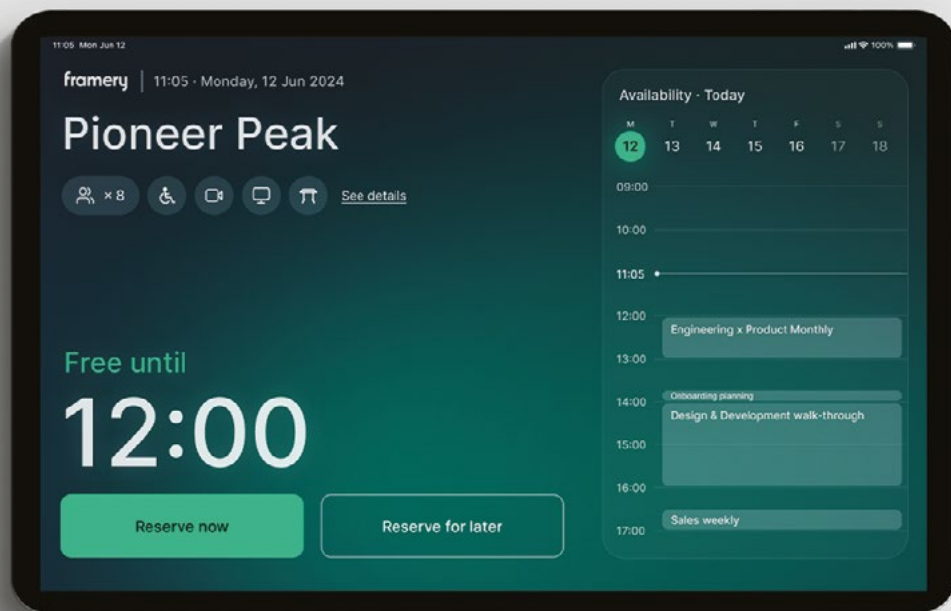

Identify and resolve availability shortages, capacity mismatches, and utilization issues using actual data.

TECHNICAL SPECIFICATIONS

Mounting	Wall
Dimensions	11 x 11 x 8 cm / 4.3 x 4.3 x 3.1 in
Weight	300 g / 10.6 oz
Power	Lithium-ion battery or USB-C cable
Sensing technology	mmWave radar and PIR
Connectivity	Built-in, cellular
Operating temperature	10-30 °C / 50-86 °F
Device management	Configuration and data viewing via Framery Connect
Wakeup technology (PIR sensor)	DISTANCE 5 meters. FIELD-OF-VIEW 90 degrees
Detection technology (millimeter wave radar)	DISTANCE Maximum 10 meters, with the most reliable detection up to 7-8 meters. FIELD-OF-VIEW 140 degrees.

Framery Room Display™

Intuitive meeting room booking system for space availability and on-the-spot reservations

framery

The Framery Room Display is an intuitive, meeting room booking system that shows real-time availability for Framery pods and office spaces. Reserve, view, and adjust bookings for boardrooms, conference rooms, office booths and pods, and any other meeting space – directly on the spot.

Framery Room Display / Product highlights

ROOM STATUS AT-A-GLANCE

A color-coded system shows instant space availability from a distance, clarifying whether the space is vacant, reserved, or currently occupied.

VIEW AND BOOK EVENTS

See the room's full calendar events and make instant reservations directly on the spot.

ZERO LEARNING CURVE

The intuitive, user-friendly interface guides usage immediately – no instructions or training needed.

NO-SHOW MEETING DELETION

Connect Framery Room Display with Framery's sensors for automatic room reservation and seamless release management.

FLEXIBLE PRODUCT OPTIONS

Acquire a complete smart office kit from Framery or use your own tablet and mounting accessories. By default includes software only.

SCALES TO DIFFERENT SIZES

Responsive user interface scales to fit most-used tablet sizes. Optimized for 10" screens.

Framery Room Display / Product details

SEE THE AVAILABILITY OF ANY SPACE AND MAKE BOOKINGS

Framery Room Display provides a seamless and smart meeting room booking experience for every office.

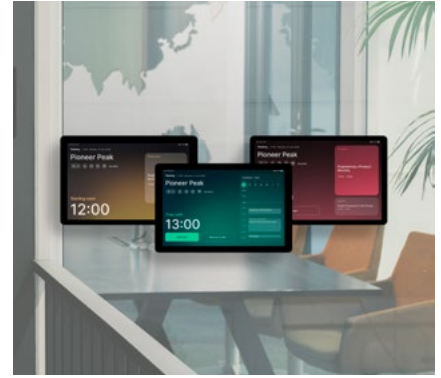

INTUITIVE BOOKING

Reserve the space for yourself instantly on the spot or for future scheduling.

EVENT LISTING

Check the current day's reservations and view the schedule for the next 12 days ahead.

ROOM-SPECIFIC INFORMATION

See room's capacity and equipment levels for selecting the right room for your meeting.

FRAMERY'S DEVICE AND MOUNTING OPTIONS

The Framery Room Display is designed to run on a variety of devices. While you may use your own preferred tablet and accessories, Framery offers high-quality optional mounting solutions, including a Lenovo 10.1" touch display (Android, 1920 x 1200, 400 nits) for a complete system.

TABLET WITH A WALL MOUNT

The wall mount is suitable for all surfaces. Includes an installation kit (mounting hardware and 3m / 10 ft cable channel) for quick setup and a USB-C cable (3m / 10 ft) with a charger. The wall mount is black, and the cable channel and USB-C cable are white.

TABLET WITH A FLOOR STAND

The operational height of the tablet on the floor stand is 110 cm / 43.3 in with a tilt angle. The powder coated matt steel floor stand is available in black. Includes also a USB-C cable (3m / 10 ft) with a charger. Please note the floor stand takes 1.5m / 5 ft of the cord length.

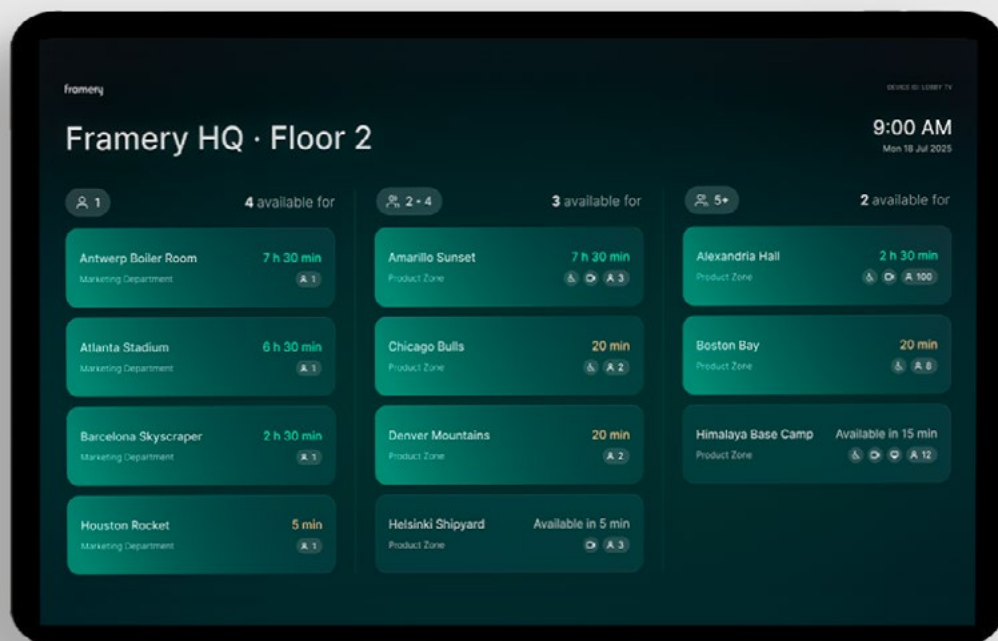

TABLET WITH A MOUNT FOR FRAMERY FOUR AND SIX

This custom-designed mount accommodates the display tablet and integrates seamlessly with Framery Four and Six pods. Includes also a USB-C cable (3m / 10 ft).

Framery Space Overview™

Instant space availability visibility for finding a free workspace or meeting room.

framery

Framery Space Overview minimizes wasted time searching for available spaces. Position the displays strategically to provide employees with immediate access to space availability information. Lobbies, hallways, break rooms, and passages are popular locations for the overview screens.

Framery Space Overview / Product highlights

VISIBILITY TO AVAILABLE SPACES

Displays the availability of nearby spaces, along with room-specific capacity and equipment levels, ensuring employees find the right room for their meeting.

STRATEGIC DEPLOYMENT

Designed to display the nearest available spaces. Deploy the overview strategically on each floor, near teams, or in high-traffic areas for maximum impact.

SEAMLESS CONNECTION WITH SPACES

Displays smoothly current space availability. Information flows flawlessly between the Framery Space Overview and the connected spaces' occupancy, with zero-latency synchronization.

FLEXIBLE DISPLAY OPTIONS

The device-flexible Framery Space Overview adapts to various screen sizes. Select large displays for high-traffic visibility and smaller tablets for on-the-spot booking features. Source your own display and accessories, or acquire the complete floor stand kit designed by Framery.

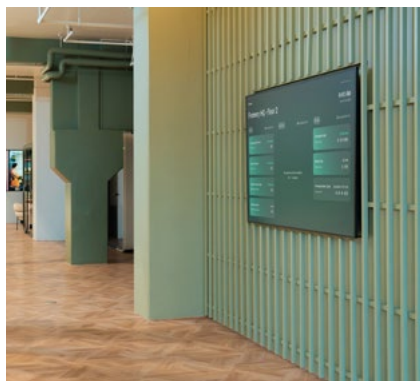

FLEXIBLE DEVICE OPTIONS

The Framery Space Overview is designed to run on a variety of devices. While you may use your own preferred display and accessories, Framery offers a high-quality floor stand, including a Lenovo 10.1" touch display (Android, 1920 x 1200, 400 nits) for a complete system.

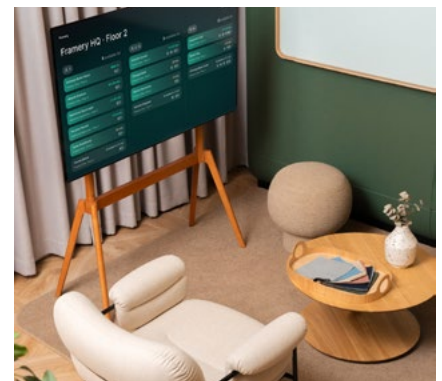

The operational height of the tablet on the floor stand is 110 cm / 43.3 in with a tilt angle. The powder coated matt steel floor stand is available in two colors: black or white. Includes also a USB-C cable (3m / 10 ft) with a charger. Please note the floor stand takes 1.5m / 5 ft of the cord length.
